

Find the support your child needs from birth through age five.

Connecting families with over 40 public services for young children.

What is **First Five South Carolina?**

First Five SC transforms the way families access publicly funded early childhood programs and services in South Carolina. Through a single online portal, families and their advocates can find information about child care, health, early intervention, nutrition, and parenting support programs in their area.

first5sc.org

Check your eligibility for 60 programs and services across 10 state agencies in these service areas:

Child Care & Early Education

Quality care and early learning give babies, toddlers, and young children their best start—and help parents work and manage their busy lives, too.

Health & Safety

From regular doctor checkups to using safe cribs and car seats, families can improve the well-being of children at every stage.

Special Needs & Early Intervention

Every child develops differently. Some babies walk early. Some toddlers speak later. How do you know when a child needs extra help? And what can you do?

Food & Nutrition

Good nutrition supports growing minds and bodies. Sometimes, families need help to provide food and make healthy meals for kids.

Parenting & Family Support

Whether learning to care for a new baby, parenting a toddler or covering the cost of raising a child, the first 5 years are a time when most families can use extra help.
